

## **Job Description**

### **Now Hiring: Adult Psychologist**

We have a role at our newly located modern offices in Adelaide CBD for an Adult Psychologist. If you are a great fit for this role, you will be responsible for independently providing a high-standard of evidence-based psychological treatment to adult clients across a range of mental health presentations. As well as having highly developed clinical skills, you may have a specific area of clinical interest that you wish to pursue and develop, and we are open to supporting you with that.

#### **The Role:**

- Working from our brand new offices on Pirie Street in Adelaide CBD, you'll provide evidence-based, focused psychological strategies (CBT, psycho-education, relaxation strategies, skills training, interpersonal therapy) to adult clients (18 years and above) referred under a GP Mental Health Care Plan or under other funding arrangements, eg. Private health and NDIS.
- An interest in working with adults with a new diagnosis of Autism or ADHD due to our referrals from our assessments.
- This may also involve the development, facilitation and evaluation of group treatment programs.
- You will maintain accurate case notes for clients using an electronic clinical record and according to Practice protocols and professional standards.
- You will participate in peer supervision meetings, and participate in planned case conferences with GPs and other health professionals involved in the client's care as required.
- We will require to you provide written reports to the client's referring GP with information regarding assessments undertaken, treatment provided; and recommendations on future management of the client's disorder, according to Practice protocols.
- Being part of our exciting and growing team, you will be able to contribute to service planning, policy and procedure development and other administrative functions relevant to service provision (including assessment procedures, protocols for individual and group treatment programs, pathways and procedures for referral).
- You will understand and comply with strict confidentiality and privacy obligations under relevant legislation and as outlined in Supported Minds policies, procedures and agreements.

- It'll be very important that you comply with established policies, procedures and other protocols required to maintain an effective and efficient practice.

### **Type of employment (full-time, part-time, casual or other)**

Candidates can choose to work part time or full time.

### **Required skills, education, qualifications and work experience**

1. Masters degree or higher in Psychology
2. Current registration with AHPRA, with an endorsement in Clinical Psychology or eligibility towards same
3. Current registration with Medicare as an approved provider
4. Experience in assessment and diagnosis of mental health disorders, and provision of Cognitive Behavioural Therapy and other evidence-based focused psychological strategies
5. Demonstrated understanding of key issues in a psychology private practice, particularly in relation to the health and wellbeing needs of adults with mental health problems.
6. Ability to use a desktop computer, with familiarity with MS Office applications and capacity to learn how to use a new clinical software package for keeping of electronic client records.
7. Ability to work independently as well as collaboratively as part of a multidisciplinary team.
8. Demonstrated written and verbal communication skills including the ability to ensure that information is passed on to others who should be kept informed and to express yourself clearly and appropriately in verbal and written interactions.

### **About Supported Minds Psychology**

COVID-19 has impacted the mental health of many South Australians and finding a psychologist with availability to see new clients is an increasingly difficult challenge. Our unique partnership with Health Partners provides an opportunity to assist Health Partners members' access psychological support in a timely manner.

We are an Adelaide based practice providing psychological therapy to all age groups. We are now looking for experienced and motivated psychologists to help meet Health Partners members' need for access to psychological services.

We love our new consulting rooms in Pirie Street with great views and fantastic soundproofing in a beautiful and comfortable environment. Our patients are referred from GPs, Health Partners and schools and utilise Medicare, private health, NDIS, employee assistance programs and other referral sources.

We offer career progression and the team at Supported Minds are selected to be supportive, respectful, collaborative, inclusive and fun!
